THRACE-LINQ ADDS MARKET DEVELOPMENT MANAGER, GEOSYNTHETICS

Technical fabrics supplier responds to growing demands for new solutions

SUMMERVILLE, SC—May 10, 2010— Thrace-LINQ promotes Daniel Selander to Market Development Manager, Geosynthetics. “This newly created position fits perfectly with our geographic expansion plans,” says Davis Taylor, the Company's Vice President of Operations. “Thrace-LINQ is experiencing rapid growth in the sales of woven and nonwoven geotextiles across the Americas and is looking to strengthen our distributor relationships through a more expansive offering of geosynthetics under the Thrace-LINQ ® brand.”

Selander is an industry veteran with over 16 years of technical sales and quality experience. He received a Bachelor of Science in Business from the Citadel.

Thrace-LINQ recently started production on a world class needle-punched Nonwovens line, with capacity in excess of 7,000 tons/year. Selander will play a major role in identifying customer needs, market trends and new product opportunities across the growing geosynthetic industry.

Thrace-LINQ: Commencing operations in May 2007, Thrace-LINQ, Inc. is a supplier of woven and nonwoven polypropylene-based technical fabrics for a wide variety of textile applications in the Americas. Our corporate office and United States manufacturing and distribution center is located in Summerville, South Carolina. Thrace-LINQ is a member of The Thrace Plastics Group, owned by the thirty-year old industry veteran Thrace Plastics Co., SA of Athens, Greece. For more information please visit www.thracelinq.com.
